

Joining F2LB

A step by step guide

Welcome fellow Cardanian

First of thank you for taking an interest in F2LB. We are a community of Small Pool Operators on the Cardano network. We strive to help each other with technical info, marketing efforts, fun conversations, and of course our delegation strategy.

The goal of our delegation strategy is to pool some of our ADA in one big pot and stake it to one pool at the time. The reason being that it is more likely to make a block with more stake (at the time of writing we also have anonymous delegators that support our effort that have a combined stake of more than a million ADA). Creating a block will prove to the world that you have an operation pool that is able of making a block. Also during your turn, you can intensify your marketing and use the F2LB community to get more exposure the help attract new delegators.

*So, you want to join. How do you do that?
You have to do 4 things.*

- Agree to the rules.**
- Create an account on our website.**
- Delegate to the current pool**
- Get validated by the moderator**

Creating an Account

First, go to the website <https://l2fb-sandbox.mxapps.io/>

Welcome to F2LB

We are a group of small pool operators that band together to find our place in the Cardano network. Feel free to join us by making an account. You can support us as a Pool or as a regular Wallet holder.

Save **Scratch that**

When you fill everything in it should look something like this (for demonstration purposes I used a random wallet and pool id).

The app will fetch all relevant data and fill it in for you.

If you have problems with the wallet address (getting a message about 'no staking key') try another receiving address of your wallet. I am aware of the problem and will try to fix it in a later revision.

When your done **click 'save'**.

Save **Scratch that**

You will now be redirected to your pool Profile. **You can fill it out if you want to** (visitors will see the logo you place here, and they can navigate to your profile for more info about your pool)

The screenshot shows the Lucy_Pool profile page. At the top, it says "Lucy_Pool a proud member of F2LB" and "A pool that shares rewards, develops software for the community and likes cats!". On the left, there's a sidebar with the pool's logo, a cat icon, and the text "Lucy_Pool" and "Ticker: LUCY". Below this is a list of rules and contact information. The main content area features a "FIRST BLOCK LOTERY" section with a photo of a cat and the text "WIN EXTRA ADA BY STAKING" and "WHEN MINTING OUR FIRST 3 BLOCKS WE GIVE 100 ADA TO ONE OF OUR STAKEHOLDERS". To the right, there's a timeline entry: "First Pool on the new website!! After building this app, it is now officially in Beta. Lets hope it works properly".

Now you're almost done.

You still have to **delegate to the current pool**. You can see this on the home page. Once you have done that you just have to message me (@Lucy_Pool) in our queue-and-delegation channel with your pool ticker or account name. **I will check your data and will add you to the list**. Once your validated you will show up on the website.

You are now a member of F2LB!

Welcome to the club

Some extra info.

You can see the current staking order list on the '**Staking Order**' tab.

On this page you can see when the latest sync of the data was done (should be every hour).

The system epoch is the app thinks it is. Near epoch boundary there can be a small lag.

When I validate your account you will get a **blue checkmark**.

If you are delegated to the correct pool you will get a **green checkmark**.

If you are delegated to the wrong pool you get the **red checkmark**.

If your wallet is smaller than your declared amount the **text becomes orange**.

3. JDFR run by Jerome
